BPL EV6 / EV8 Compatible SpO2 Probe - 12-Pin Round Connector

Product & connection guide

A replacement SpO2 probe for BPL EV6 and EV8 patient monitors with the matching 12-pin round connection. Compare the plug and monitor port with the connector photos before ordering.

Know what you are ordering

Accessory: Replacement SpO2 probe

Equipment reference: BPL EV6 / EV8

Monitor connection: 12-pin round connector

Product supply: Compatible replacement; not described as original BPL

Match these details before ordering

Check EV6 or EV8 on the equipment label, then compare the connector front, locating features and socket. Other BPL models may use a different connection.

Pack contents

One selected sensor/probe. Monitor and separate adapter cables are not included.

Need help matching your equipment?

Send the equipment brand and model, any printed part reference, and clear photos of the monitor port, probe connector and complete accessory. Our team can help identify the correct listing.
